

Glass

Plinth

The free standing glass mounting plinth is an ideal option to use with our cabinet and walkway plinths for sites where you can't fix to the floor.

The plinth is manufactured in 1m sections which can be easily bolted together.

The final end section is custom made to suit site requirement and has an upturn so that it can be attached to the wall to improve rigidity.

Within the plinth is a 95 x 15mm channel for cables.

Maximum high of glass panels 1.7m.
